About us

Hong Sheng Bags and Design Ltd. is a professional OEM manufacturer of insulated food delivery and takeaway bags, serving restaurants, delivery fleets and brand owners since 2009. Our factory in Shenzhen, China covers 3,000 square metres with around 100 employees, including experienced and skilled technical workers. The factory is audited under BSCI and Disney standards.

We manufacture to each client's specification: food delivery backpacks, Meal Plan thermal bags, pizza delivery bags and non-woven takeaway bags. Our in-house production covers design, sampling, screen printing, heat-transfer printing, embroidery, sewing and packing, supported by a strict quality control system.

Years of production management have given us deep experience in delivery packaging. Our production and service teams work closely with each client, and we look forward to building long-term, stable partnerships with brand owners, wholesalers and licensees worldwide.
